SUNLIFE Team

Vitafoods PLMA & CPhI

SUNLIFE® also showcased itself at this year's **Vitafoods in Geneva** and at the **PLMA in Amsterdam** as an innovative distribution company specialised on tailor-made solutions.

We were pleased with meeting our customers as well as presenting our products and opportunities to potential new business partners.

Our team was able to gather impressions and inspirations from all over the world and we are looking forward to welcoming you at the **CPhI in Madrid** from **08 - 11 October**.

You will find us at Booth 14.1C81

08 - 11 October 2018

 **CPhI** worldwide

NEW

Weight Management

Slimming

Fat Binder Tablets

Medical device

For adjuvant therapy of excess weight.

Reduce the calorie intake from dietary fats

Active ingredient: Fruit fiber blend BAO 022

The fruit fiber blend binds the dietary fats to a stable fat-fruit fibre-complex in the stomach. The fats are therefore not resorbed in the digestive tract and are eliminated by the body naturally.

Content: 32 tablets in folding box incl. leaflet

Usage: 1-2 tablets per fat-rich meal, maximum daily dose: 4 tablets

Further details: Gluten- and lactose-free, suitable for vegans

Carbohydrate Blocker Tablets to swallow

Medical device

For adjuvant therapy of excess weight.

Active ingredient: White Kidney Bean Extract

The natural extract from the white Kidney bean reduces absorption of calories from carbohydrates verifiably.

Content: 32 tablets per folding box

Usage: 1-3 tablets per meal, maximum daily dose: 6 tablets

*Concept

Vitamin C 1000 mg Effervescent tablets Watermelon flavour

Food supplement

Vitamin C contributes to the normal function of the immune system, the protection of cells from oxidative stress and the reduction of tiredness and fatigue.

Composition: Vitamin C 1000 mg

Content: 20 effervescent tablets

Usage: Dissolve 1 effervescent tablet a day in a glass of water (250 ml) and drink

Vitamin C update

With the start of this year we were challenged to maintain a reasonable price of vitamin C to our customers, after the dramatic increase of vitamin C raw materials in the global market.

The current price situation has eased a little bit and we bargain new Vitamin C contracts by the end of this year. In case that it comes to cheaper Vitamin C prices, we will pass them on to our customers.

For more information about the background of the global Vitamin C price increase please read here:
