Beauty

A balanced nutritional supplement can specifically help support natural beauty from within. Skin, hair, and nails are not just external features, but also a reflection of our inner health and vitality.

Through the targeted use of vitamins, minerals, and other bioactive ingredients, beauty needs can be optimally supported. Skin benefits from nutrients that stimulate collagen production and retain moisture, ensuring greater elasticity and resilience.

Hair receives support for strong, shiny growth from special vitamins and trace elements. Nails become more resilient, stronger, and less likely to break.

Modern nutritional supplements combine these active ingredients in an optimally balanced formula that provides the body with everything it needs for a well-groomed, healthy appearance. Taken regularly, they help maintain natural radiance and promote holistic well-being – for beauty that comes from within.

All About Skin Sticks

Food supplement

With age, the body's defenses against oxygen radicals weaken, and the first signs of changes in the skin begin to appear. The skin loses elasticity due to the breakdown of collagen and hyaluronic acid, the primary moisture reservoirs. All about skin Sticks nourish the skin from within with many important nutrients to sustainably support skin structure, protection, and radiance.

Composition (per stick / NRV*):

Hyaluronic acid	100 mg (**)
Coenzyme Q10	30 mg (**)
Vitamin C	80 mg (100% NRV*)
Selenium	55 µg (100% NRV*)
Copper	250 µg (25% NRV*)

Content: 30 Sticks

Order quantity: ≥5.000 boxes
No stock items

Biotin Plus Tablets

Food supplement

Biotin is an essential vitamin and is often referred to as the beauty vitamin. As a component of modern dietary supplements, it supports skin and hair from within. Biotin contributes to the maintenance of normal skin structure and promotes strong, shiny hair. Regular intake strengthens the external appearance and sustainably supports natural vitality.

Composition (per tablet / NRV*):

Biotin	1000 µg (2000% NRV*)
Vitamin A	400 µg RE (50% NRV*)
Vitamin C	80 mg (100% NRV*)
Vitamin D3	5 µg (100% NRV*)
Vitamin E	12 mg α-TE (100% NRV*)
Vitamin B2	1,4 mg (100% NRV*)
Vitamin B12	3 µg (120% NRV*)
Folic acid	200 µg (100% NRV*)
Selenium	55 µg (100% NRV*)
Manganese	2 mg (100% NRV*)
Copper	0,5 mg (50% NRV*)
Zinc	5 mg (50% NRV*)

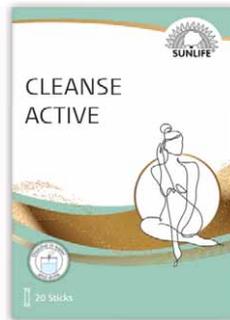

Content: 60 Tablets

Order quantity: ≥5.000 boxes
No stock items

Cleanse Active Sticks

Food supplement

Cleanse Actice Sticks combines high-quality ingredients for holistic well-being. Oliglow® galactooligosaccharides support the microbiome, while antioxidant-rich plant extracts protect against oxidative stress. Copper contributes to the maintenance of connective tissue and normal skin pigmentation. Choline supports lipid metabolism and liver function. Together, they promote vitality, inner balance, and a healthy external appearance.

Composition (per stick / NRV*):

Oliglow®	2000 mg (**)
Chlorella	100 mg (**)
Black currant extract	80 mg (**)
- thereof anthocyanins	12 mg
- thereof polyphenols	6,4 mg
Milk thistle extract	25 mg (**)
- thereof silymarin	20 mg
L-choline	100 mg (**)
Pantothenic acid	6 mg (100% NRV*)
Copper	200 µg (20% NRV*)

Content: 20 Sticks

Order quantity: ≥5.000 boxes
No stock items

Collagen 3000 mg Sticks

Food supplement

Collagen hydrolysate, hyaluronic acid, and the amino acid L-cysteine are valuable components of modern nutritional supplements. They support skin and connective tissue from within. Collagen strengthens the structure, hyaluronic acid retains moisture, and L-cysteine contributes to the formation of keratin. Together, they sustainably promote elasticity, tone, and a well-groomed, vital appearance of the skin.

Composition (per stick / NRV*):

Collagen	3000 mg (**)
L-Cysteine	100 mg (**)
Hyaluronic acid	50 mg (**)
Vitamin C	80 mg (100% NRV*)
Vitamin E	12 mg (100% NRV*)
Vitamin A	400 µg (50% NRV*)
Zinc	2,25 mg (23% NRV*)
Biotin	50 µg (100% NRV*)

Content: 20 Sticks

Order quantity: ≥5.000 boxes
No stock items

Collagen Direct sticks

Food supplement

Collagen Direct Sticks combines collagen hydrolysate and biotin for healthy hair. Collagen supports structure, calcium strengthens from within, and biotin contributes to the maintenance of normal hair. Together, these ingredients promote strength, shine, and vitality – for a well-groomed appearance and visible natural beauty.

Composition (per stick / NRV*):

Collagen hydrolysate	1000 mg (**)
Biotin	0,10 mg (**)

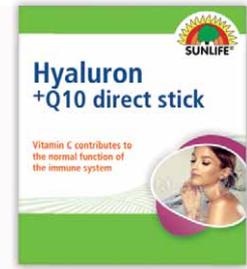

Content: 30 Sticks

Order quantity: ≥5.000 boxes
No stock items

Hyaluron + Q10 Direct sticks

Food supplement

Hyaluron + Q10 direct sticks combines beauty ingredients such as hyaluronic acid, Q10, and copper. Hyaluronic acid provides moisture for plump skin, while Q10 supports cellular energy supply and acts as an antioxidant. Copper contributes to the maintenance of connective tissue and skin pigmentation. Together, these ingredients promote a radiant, vital appearance and natural beauty from within.

Composition (per stick / NRV*):

Vitamin C	80 mg (100% NRV*)
Hyaluronic acid	60 mg (**)
Zinc	5 mg (50% NRV*)
Coenzyme Q10	30 mg (**)
Copper	0,5 mg (50% NRV*)
Biotin	0,1 mg (200% NRV*)

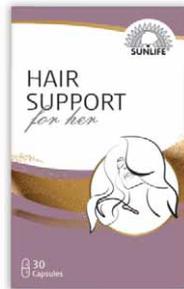

Content: 20 Sticks

Order quantity: ≥5.000 boxes

Hair Support for him Capsules

Food supplement

Hair Support for Him combines hops, oyster extract, L-arginine, caffeine, and antioxidants to specifically support hair from within. L-arginine promotes blood circulation, caffeine stimulates the hair roots, while hops and oyster extract provide valuable nutrients. Antioxidants protect against oxidative stress – for strong, vital, and healthy, shiny hair.

Composition (per capsules / NRV*):

L-Arginine	200 mg (**)
Oyster extract	100 mg (**)
- thereof taurine	4 mg
Hop extract	50 mg (**)
Caffeine	30 mg (**)
Iron	7 mg (50% NRV*)
Zinc	3 mg (30% NRV*)
Vitamin C	20 mg (25% NRV*)
Vitamin B2	1,4 mg (100% NRV*)
Vitamin B6	1,4 mg (100% NRV*)
Vitamin B12	2,5 µg (100% NRV*)
Vitamin D3	5 µg (100% NRV*)

Content: 30 Capsules

Order quantity: ≥5.000 boxes
No stock items

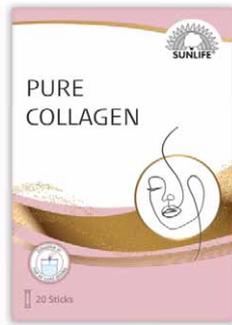

Pure Collagen Sticks

Food supplement

Collagen is an important structural protein and plays an essential role in the firmness and elasticity of the skin. With age, the body's own production of collagen decreases and the first wrinkles appear.

Pure collagen is a pure bovine collagen of type I which is found in greater quantities in the skin. The product is also free of any additives. Due to its neutral taste and good solubility, the collagen can be optimally integrated into daily nutritional habits.

Composition (per stick / NRV*):

Collagen hydrolysate 2500 mg (**)

Content: 20 Sticks

Order quantity: ≥5.000 boxes

No stock items

Pure Skin Capsules

Food supplement

Pure Skin Capsules contribute to the maintenance of normal skin. Resveratrol from grape skins has a powerful antioxidant effect, protects cells from oxidative stress, and promotes an even skin tone. When taken regularly, these ingredients strengthen the skin from within and contribute to increased vitality and a youthful appearance.

Composition (per capsule / NRV*):

Grape skin extract	125 mg (**)
- thereof Resveratrol	50 mg
Chamomile flower extract	30 mg (**)
Vitamin E	12 mg (100% NRV*)
Niacin	16 mg (100% NRV*)
Zinc	15 mg (150% NRV*)

Content: 30 Capsules

Order quantity: ≥5.000 boxes

No stock items

Skin Protection Effervescent tablets

Food supplement

Our skin is exposed to a variety of stressors every day, including environmental pollution and UV radiation. If the skin is not sufficiently supplied with antioxidants and loses moisture, it can no longer optimally fulfill its barrier function.

Furthermore, the skin aging process accelerates. Skin Protection Effervescent tablets nourish the skin from within with hyaluronic acid, coenzyme Q10, and valuable antioxidants from pomegranate.

Composition (per tablet / NRV*):

Pomegranate fruit extract	50 mg (**)
- thereof polyphenols	25 mg
- thereof ellagic acid	1 mg
Coenzyme Q10	15 mg (**)
Hyaluronic acid	30 mg (**)
Vitamin E	12 mg (100% NRV*)
Niacin	20 mg (125% NRV*)

Content: 20 Effervescent tablets

Order quantity: ≥10.000 boxes

Skin-Hair-Nails Effervescent tablets

Food supplement

This product combines silica, blood orange fruit powder, and biotin to support skin, hair, and nails. Silica provides silicon for structure and strength, biotin contributes to the maintenance of normal skin and hair, and blood orange provides antioxidant protection. Together, these ingredients promote beauty, vitality, and a well-groomed appearance from within.

Composition (per tablet / NRV*):

Vitamin C	250 mg (313% NRV*)
Silica	164 mg (**)
Juice powder Bloodorange	100 mg (**)
Biotin	2,50 mg (5000% NRV*)

Content: 10 Effervescent tablets

Order quantity: ≥10.000 tubes

No stock items

Bones & Joints

Bone and joint health is crucial for mobility and quality of life. Dietary supplements can provide targeted support here.

Calcium and vitamin D play a key role: Calcium forms the foundation of strong bones, while vitamin D improves calcium absorption. Children and the elderly in particular benefit from supplementation when their diet is insufficient.

Special products for children promote healthy bone development. Glucosamine and chondroitin are important for joint health. These natural components of cartilage support the structure and function of joints and can relieve pain. Many people use these nutrients to promote mobility and enhance general well-being.

Our high-quality supplements are tailored to the needs of different age groups and help maintain the normal function of bones and joints. They thus actively contribute to maintaining and strengthening mobility, stability, and quality of life in the long term.

Calcium Effervescent tablets

Food supplement

Advanced Formula

Calcium supports skeletal stability, promotes dental strength, and contributes to a healthy mineral balance. Taken regularly, it strengthens the foundation for mobility, vitality, and a healthy life. Dissolved in water, our effervescent tablets are particularly beneficial for people with swallowing difficulties or for children who often have difficulty swallowing large tablets.

Composition (per tablet / NRV*):

Calcium 400 mg (50%*)

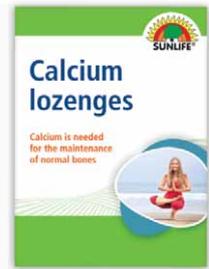

Content: 20 Effervescent tablets

Order quantity: ≥10.000 boxes
No stock items

Calcium Lozenges

Food supplement

Calcium supports skeletal stability, promotes dental strength, and contributes to a healthy mineral balance. Taken regularly, it strengthens the foundation for mobility, vitality, and a healthy life. Lozenges with a pleasant taste, practical for on the go

Composition (per tablet / NRV*):

Calcium 500 mg (63% NRV*)

Content: 30 lozenges

Order quantity: ≥5.000 boxes
No stock items

Calcium + Vitamin C Effervescent tablets

Food supplement

Calcium and vitamin C support the maintenance of normal bones and teeth. Calcium contributes to the maintenance of normal bone structure and tooth strength, while vitamin C promotes collagen formation and provides antioxidant protection. Together, these nutrients support stability, resilience, and a healthy foundation for long-term vitality and well-being.

Composition:

Calcium 300 mg (37,5%*)
Vitamin C 75 mg (94%*)

Content: 20 Effervescent tablets

Order quantity: ≥10.000 boxes

Calcium + D3 Effervescent tablets

Food supplement

Advanced Formula

Calcium and vitamin D3 for targeted support of bones, joints, and teeth. Calcium strengthens structure, while vitamin D3 improves absorption, thus supporting the maintenance of normal function. Together, these nutrients contribute to stability, mobility, and resilience – for long-term health and vitality.

Composition:

Calcium 400 mg (50%*)
Vitamin D3 2,5 µg (50%*)

Content: 20 Effervescent tablets

Order quantity: ≥10.000 tubes
No stock items

Calcium + D3 Effervescent tablets

Food supplement

High dosed

This high-dose dietary supplement provides an optimal combination of calcium and vitamin D3. Calcium strengthens bones and teeth, while vitamin D3 improves absorption and contributes to the maintenance of normal structures. Together, they support long-term stability, resilience, and health - ideal for daily use and for a strong foundation in everyday life

Composition (per tablet / NRV*):

Calcium	800 mg (100% NRV*)
Vitamin D3	5 µg (100% NRV*)
Copper	1 mg (100% NRV*)
Folic acid	400 µg (200% NRV*)
Vitamin K1	75 µg (100% NRV*)

Content: 17 Effervescent tablets

Order quantity: ≥10.000 boxes

Brain Health

The brain is our body's most important control center and plays a crucial role in memory, concentration, and mental performance. Starting at the age of 20, our memory begins to decline, and the brain's ability to form new connections diminishes.

Unhealthy diet, environmental factors, and oxidative stress are considered the main causes of cell damage and the degradation of neuronal structures. Special nutritional supplements can provide natural support in this regard.

The amino acid L-choline provides important building blocks for the formation of the neurotransmitter acetylcholine, which is essential for learning processes and concentration. In addition, B vitamins promote the normal function of the nervous system and contribute to mental performance. Piperine can improve the absorption of valuable nutrients and stimulate beta-endorphins, which promote well-being and motivation.

Combined, these ingredients strengthen the brain, support concentration and memory, and contribute to maintaining long-term mental fitness, even in everyday life.

Be happy tablets

Food supplement

Stress and negative experiences can disrupt our hormonal balance.

Be Happy tablets contain essential building blocks for sero-otonin production, the so-called "happiness hormone". Zinc and magnesium play a role in regulating neurotransmitters involved in emotional processes. Ginseng is a well-established remedy in traditional medicine for treating anxiety and depression, as well as for preventing stress-related illnesses.

Composition (per tablet / NRV*):

L-Tryptophane	400 mg (**)
Ginseng extract	100 mg (**)
Alpha-Lipoic acid	40 mg (**)
Magnesium	100 mg (27% NRV*)
Zinc	5 mg (50% NRV*)
Vitamin B6	2,1 mg (150% NRV*)
Folic acid	200 µg (100% NRV*)
Vitamin D3	7,5 µg (150% NRV*)

Content: 32 Tablets

Order quantity: ≥5.000 boxes

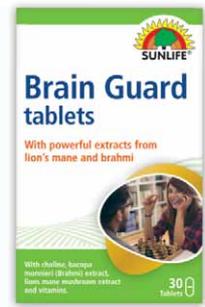

No stock items

Brain Guard tablets

Food supplement

Starting around the age of 20, memory function declines, a process that is exacerbated by an unhealthy diet and oxidative stress.

Hericium mushroom provides zinc and selenium and supports nerve cell growth. Brahmi protects cells and promotes cognitive function. Brain Guard combines these extracts with L-choline and vitamins C, B6, and B12 to support the nervous system.

Composition (per 2 tablets / NRV*):

Lion's Mane extract	40 mg (**)
Brahmi extract	75 mg (**)
L-Choline	100 mg (**)
Vitamin C	80 mg (100% NRV*)
Vitamin B6	1 mg (71% NRV*)
Vitamin B12	1 µg (40% NRV*)

Content: 30 Tablets

Order quantity: ≥5.000 boxes

Brain Performance sticks

Food supplement

Brain Performance Sticks contain key building blocks of the neurotransmitter acetylcholine, which is essential for communication between our nerve cells.

Piperine (a natural component of black pepper) promotes the production of beta-endorphins, which give us a feeling of well-being and help reduce stress. Piperine also enhances the absorption of vitamins and other important nutrients.

Composition (per stick / NRV*):

CDP-Cholin	400 mg (**)
N-Acetyl-L-Carnitine	1500 mg (**)
Piperin	2 mg (**)
Pantothenic acid	6 mg (100% NRV*)
Vitamin B6	2 mg (143% NRV*)
Vitamin B12	2 µg (80% NRV*)
Folic acid	300 µg (150% NRV*)

Content: 20 Sticks

Order quantity: ≥5.000 boxes

No stock items

Ginkgo Biloba Effervescent tablets

Food supplement

Ginkgo biloba is rich in valuable components such as flavonoids, terpenoids, and ginkgolides. Flavonoids act as antioxidants and protect cells, terpenoids promote blood circulation, while ginkgolides have anti-inflammatory properties. Together, these compounds support brain function, improve concentration and memory, and thus contribute to mental vitality and well-being.

Composition (per tablet / NRV*):

Ginkgo Biloba extract	60 mg (**)
Equivalent to Ginkgo Biloba	3000 mg (**)

Content: 20 Effervescent tablets

Order quantity: ≥10.000 tubes

Cardiovascular

A healthy cardiovascular system forms the basis for vitality, performance, and quality of life. It supplies the entire body with oxygen and nutrients, enabling the smooth functioning of all organs. A balanced diet, sufficient exercise, and targeted stress management are essential for maintaining long-term cardiovascular health.

A varied diet with fresh fruit, vegetables, whole grain products, and high-quality fats provides valuable building blocks for the heart and blood vessels. Regular physical activity strengthens the heart muscle and blood circulation, while relaxation techniques help offset stress.

In addition, our SUNLIFE nutritional supplements can effectively support natural heart function. They contain important vitamins, minerals, and bioactive substances that contribute to normal blood circulation and supply the cardiovascular system with targeted nutrients. They thus make a valuable contribution to maintaining heart health, keeping blood vessels elastic, and promoting general well-being. For more energy, balance, and an active life at any age.

Arginin + Carnitine Effervescent tablets

Food supplement

Arginine and L-carnitine support energy levels and blood circulation, while inositol helps regulate cell metabolism. Coenzyme Q10 strengthens the cell's energy production processes, zinc contributes to normal fertility, and lycopene provides antioxidant protection – all working together to promote vitality, performance, and overall well-being.

Composition (per tablet / NRV*):

Arginine	2500 mg (**)
L-Carnitine	500 mg (**)
Inositol	200 mg (**)
Coenzyme Q10	5 mg (**)
Zinc	12,5 mg (125% NRV*)
Lycopene	2,5 mg (**)

Content: 10 Effervescent tablets

Children

Vitamins and minerals are essential for children because they support numerous bodily functions and promote healthy development. During their growth phase, children need an adequate supply of these micronutrients to strengthen bones and teeth and build their immune systems.

Calcium and vitamin D contribute significantly to skeletal stability and health, while other vitamins such as vitamin C and zinc support the immune system and thus help fight off infections more effectively. B vitamins are crucial for concentration, energy, and mental performance - important factors in everyday school life.

A balanced diet is the best foundation, but especially during periods of increased nutritional needs or an unbalanced diet, nutritional supplements can be useful to fill any gaps.

Our specially developed products for children combine selected vitamins and minerals in optimal dosages, thus making an important contribution to growth, development, and holistic well-being - for a healthy start in life.

A - Z + Lutein for Kids Effervescent tablets

Food supplement

Vitamins, iron, and iodine in child-friendly dosages; specially formulated for healthy child development. Contains vitamin D for strong bones and iron to support cognitive development. Free from artificial colors and additives; perfectly tailored to children's needs. Easy to take.

Composition (per tablet / NRV*):

Energy & Focus

Taurine, guarana, and B-complex vitamins form a powerful combination that supports body and mind in a variety of ways.

Taurine is an important amino acid that strengthens the nervous system, eye function, and the immune system. It also contributes to the regulation of fluid and electrolyte balance.

Guarana is known as a natural energy source and provides caffeine in a particularly well-tolerated form. It increases alertness, supports fat burning, and counteracts fatigue - ideal for athletes or people with increased performance needs.

The vitamin B complex also promotes normal nervous system function, supports muscles and energy metabolism, and contributes to the reduction of fatigue. The nutrients contained in the supplement also have antioxidant effects and protect cells from oxidative stress.

This unique combination thus offers comprehensive support for vitality, concentration, and performance - both in everyday life and during sporting challenges. For more energy and endurance.

Energy Power Effervescent tablets

Food supplement

Vitamins and minerals are particularly important for the functioning of the human body. Exercise and physical exertion can increase the need for these substances. Vitamins B2, B6, and B12, as well as niacin and pantothenic acid, support normal energy metabolism and contribute to the reduction of tiredness and fatigue.

Composition (per tablet / NRV*):

Taurine	1,000 mg (**)
Guarana extract	80 mg (**)
Caffeine	34 mg (**)
- of which guarana extract	8 mg (**)
Niacin	9 mg (56% NRV*)
Pantothenic acid	6 mg (100% NRV*)
Vitamin B2	0.8 mg (57% NRV*)
Vitamin B6	1.3 mg (93% NRV*)
Vitamin B12	3.3 µg (132% NRV*)

Flu & Cold

A strong immune system is crucial, especially during cold season, to mobilize defenses and protect the body from infections. Vitamin and mineral supplements make an important contribution, as they supply the body with targeted nutrients that are essential for the immune system.

Adequate intake can help alleviate cold symptoms or shorten their duration. Practical products also support well-being during the cold season: A thermometer allows for reliable body temperature monitoring, while nasal gel moistens the mucous membranes and keeps the airways clear.

Special preparations for the throat area can have a soothing effect and thus relieve throat discomfort. Helpful products are also available for dry coughs that protect the mucous membranes and soothe irritation.

The variety of these coordinated solutions offers comprehensive support – from strengthening the immune system to alleviating typical cold symptoms – for improved health and well-being during the cold season.

Medical Nose gel

Medical product

This medicated nasal gel is suitable for colds, pollen allergies, and nasal congestion. It protects and moisturizes the sensitive nasal mucosa, thus promoting freer breathing. The hydrogel with hyaluronic acid provides intensive moisture, while panthenol has a regenerating effect – ideal for the care and relief of irritated nasal passages in everyday life.

Ingredients:

Active ingredient complex: Hydroxyethylcellulose, sodium chloride, hyaluronic acid; Other ingredients: Water, propylene glycol, pentylene glycol, butylene glycol, lauryl glucoside, panthenol, allantoin, phytic acid, sodium hydroxide

Content: 10 ml

Order quantity: ≥ 10.000 boxes

Manuka Propolis throat lozenges

Medical product

When licked or sucked, a special hydrogel complex is formed. This complex adheres to the mucous membranes of the mouth, throat, and pharynx, forming a protective film. The irritated mucous membrane is then intensively moisturized. Persistent cough, a scratchy throat, hoarseness, dry mucous membranes, and resulting sore throat are noticeably relieved.

Composition:

Active ingredient: Hydrogel complex (carbomer, gum arabic, sodium hyaluronate). Other ingredients: Sorbitol, ascorbic acid, flavorings, Manuka honey powder, magnesium salts of fatty acids, propolis extract, sucralose

Content: 24 Lozenges

Order quantity: ≥ 5.000 boxes
No stock items

Sore throat and salt lozenges

Medical product

A scratchy throat and sore throat are common early symptoms of throat and pharynx problems. Throat and Pharynx Salt Lozenges contain natural sea salt to moisturize and cleanse the mucous membranes of the throat and pharynx. They soothe irritated mucous membranes and can help relieve sore throat, cough, and hoarseness.

Composition:

Each tablet contains the following active ingredient: sea salt (10.83%) Other ingredients: sorbitol, maltodextrin, magnesium stearate, menthol flavor, peppermint flavor, sucralose

Content: 36 Lozenges

Order quantity: ≥ 5.000 boxes
No stock items

Immunity

A strong immune system is the foundation for good health, well-being, and robust defense against infections. To support the body's natural defense mechanisms, vitamins, trace elements, and minerals play a crucial role.

Vitamin C not only contributes to the normal function of the immune system, but also supports iron absorption and protects cells from oxidative stress. Iron itself is essential for energy metabolism and the formation of red blood cells, which transport oxygen throughout the body. Selenium and zinc are essential trace elements that strengthen the immune system and specifically support the body's defenses.

Vitamin D also plays a key role, as it promotes the normal function of the immune system and contributes to the maintenance of healthy bones.

A balanced combination of these nutrients thus makes a valuable contribution to strengthening the body's defenses, stabilizing the immune system, and promoting overall health – for more energy, vitality, and long-term well-being.

ACE + Selenium Effervescent tablets

Food supplement

This combination with ACE + selenium combine vitamins A, C, and E with the trace element selenium to create a powerful antioxidant formula.

They support the immune system, protect cells from oxidative stress, and promote vitality and well-being. Ideal for daily use – simply dissolve, refresh, and invigorate.

Composition (per tablet / NRV*):

Vitamin C	75 mg (94% NRV*)
Beta-carotene	6 mg (**)
- equivalent to Vitamin A	1000 µg (125% NRV*)
Vitamin E (α-TE)	12 mg (100% NRV*)

Vitamins A + D3 Drops

Food supplement

The use of sunblock and sunscreen as well as indoor activities means that the sun exposure is very low and the body itself often does not produce enough vitamin D3. Vitamin D3 is needed for growth and development of healthy bones. Vitamin A contributes to healthy skin and vision and has a role in the process of cell specialization

Composition (per ml / NRV*):

per 0,5 ml		per 1,0 ml	
Vitamin D3 (Cholecalciferol)	5 µg (100% NRV*) (200 I.U.)	Vitamin D3 (Cholecalciferol)	10 µg (200% NRV*) (400 I.U.)
Vitamin A	227,5 µg (28% NRV*)	Vitamin A	455 µg (57% NRV*)

Content: 30 ml

Order quantity: ≥15.000 boxes

Zinc + C + E Effervescent tablets

Food supplement

Vitamin C, zinc, and vitamin E form a powerful combination to support the immune system and protect cells from oxidative stress. Vitamin C strengthens the body's defenses, zinc supports cell regeneration and skin health, while vitamin E has antioxidant properties. Together, they promote vitality, well-being, and a strong immune system – every day.

Composition (per tablet / NRV*):

Vitamin C	150 mg (187% NRV*)
Vitamin E (alpha-TE)	18 mg (150% NRV*)
Zinc	5 mg (50% NRV*)

Content: 20 Effervescent tablets

Order quantity: ≥10.000 tubes
No stock items

Zinc + C + E + D3 Effervescent tablets

Food supplement

Vitamin C, zinc, vitamin E, and vitamin D3 form a powerful combination to support the immune system and protect cells from oxidative stress. Vitamin C and zinc strengthen the body's defenses, vitamin E acts as an antioxidant, and vitamin D3 contributes to normal immune function. Together, they promote vitality, health, and well-being.

Composition (per tablet / NRV*):

Vitamin C	1000 mg (1250% NRV*)
Vitamin E	200 IU (1500% NRV*)
Zinc	15 mg (150% NRV*)
Vitamin D3	400 IU (200% NRV*)

Content: 20 Effervescent tablets

Order quantity: ≥10.000 tubes

Pregnancy & Fertility

We offer a comprehensive selection of products specifically tailored to the needs of women at different stages of life. Our range of nutritional supplements supports women who are pregnant, planning to become pregnant, or breastfeeding, with important vitamins, minerals, and nutrients for mother and child.

Our DHA products, in particular, promote the development of the baby's brain and eyes. In addition, we offer reliable diagnostics such as pregnancy and ovulation tests, as well as special fertility products for men and women to support natural fertility.

Galactofen can promote milk flow during breastfeeding, while inositol contributes to hormonal balance and positively influences fertility.

Proposol offers additional natural support through valuable ingredients.

With this diverse product range, we accompany women and families from the phase of trying to conceive through pregnancy and breastfeeding – for health, well-being, and safe, natural support during every important phase of life.

Active Mum Effervescent tablets

Food supplement

For women and mothers, it combines collagen, hyaluronic acid, coenzyme Q10, amino acids, plant extracts, vitamins, and minerals. The balanced formula supports skin, hair, and nails, promotes energy and vitality, and contributes to general well-being. Ideal as a daily supplement for beauty, balance, and inner strength in demanding everyday life.

Composition (per tablet / NRV*):

Fish Collagen	200 mg (**)	Iodine	75 µg (50% NRV*)
Hyaluronic acid	15 mg (**)	Selenium	25 µg (46% NRV*)
L-Methionine	30 mg (**)	Chromium	20 µg (50% NRV*)
L-Cysteine	30 mg (**)	Vitamin C	80 mg (100% NRV*)
Grape seed extract	15 mg (**)	Niacin	16 mg (100% NRV*)
Bamboo extract	13,3 mg (**)	Vitamin E (α-TE)	12 mg (100% NRV*)
-of which Silica	10 mg (**)	Pantothenic acid	6 mg (100% NRV*)
Coenzyme Q10	5 mg (**)	Vitamin B1	4 mg (364% NRV*)
Beta Carotene	1 mg (**)	Vitamin B2	5 mg (357% NRV*)
Calcium	200 mg (25% NRV*)	Vitamin B6	5 mg (357% NRV*)
Magnesium	75 mg (20% NRV*)	Vitamin B12	5 µg (200% NRV*)
Zinc	10 mg (100% NRV*)	Vitamin D3	10 µg (200% NRV*)
Copper	0,5 mg (50% NRV*)	Folic acid	200 µg (100% NRV*)
Manganese	0,5 mg (25% NRV*)	Biotin	150 µg (300% NRV*)

Folic acid Plus Tablets

Food supplement

Folic acid contributes to maternal tissue growth during pregnancy and to normal blood cell formation. Vitamin D3 and vitamin B12 have a role in cell division. Iodine contributes to the normal production of thyroid hormones and to normal thyroid function.

Composition (per tablet / NRV*):

Folsäure	800 µg (400% NRV*)
Vitamin D3	20 µg (400% NRV*)
Vitamin B12	9 µg (360% NRV*)
Jod	150 µg (100% NRV*)

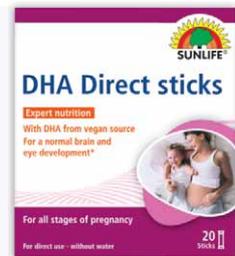

Content: 90 Tablets

Order quantity: ≥5.000 boxes
No stock items

DHA Direct sticks

Food supplement

DHA Direct sticks contain the omega-3 fatty acid DHA which is especially important during pregnancy as recommended by many health professionals. DHA contributes to maintenance of normal brain function and normal vision. DHA is mainly found in fatty fish. DHA Direct sticks contain DHA from algae and are therefore a vegan alternative. The beneficial effect is obtained with a daily intake of 250 mg of DHA.

Composition (per stick / NRV*):

DHA (from algal oil)	250 mg (**)
Vitamin C	45 mg (56% NRV*)

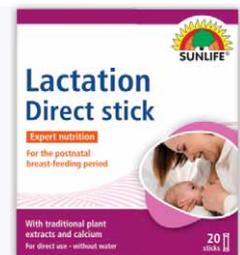

Content: 20 Direct sticks

Order quantity: ≥5.000 boxes
No stock items

Lactation Direct sticks

Food supplement

Lactation Direct stick contain vitamins and minerals covering the daily amounts for lactating women as recommended by the German Institute for Nutrition. Fennel and Anise are known from traditional medicine to help with milk production. Calcium and vitamin D support healthy bones and a normal calcium level in the blood. Vitamin C and zinc support a normal function of the immune system. The vitamins B1, B6 and B12 support a normal energy-yielding metabolism and help to reduce tiredness and fatigue.

Composition (per 2 sticks / NRV*):

Fennel extract	200 mg (**)
Anise extract	100 mg (**)
Beta carotene	4,5 mg (**)
Calcium	800 mg (100% NRV*)
Selenium	75 µg (136% NRV*)
Iodine	260 µg (173% NRV*)
Zinc	8 mg (80% NRV*)
Iron	6 mg (43% NRV*)
Vitamin C	125 mg (156% NRV*)
Vitamin E	17 mg (142% NRV*)
Vitamin B1	1,3 mg (118% NRV*)
Vitamin B6	1,6 mg (114% NRV*)
Vitamin B12	5,5 µg (220% NRV*)
Vitamin D3	5 µg (100% NRV*)
Folic acid	450 µg (225% NRV*)

Content: 20 Direct sticks

Order quantity: ≥5.000 boxes

Early Pregnancy Test

Medical product

The Early hCG Urine Test is a pregnancy test which you can easily carry out yourself. It detects the presence of human chorionic gonadotropin (hCG) which appears in urine very early during pregnancy. For in vitro self-testing use only. For external use only.

Sensitivity and accuracy:

The test will detect hCG in urine at the concentrations of 10 mIU/ml and higher. This sensitivity level has been confirmed with hCG standards (0 mIU/ml, 2.5 mIU/ml, 5 mIU/ml, 10 mIU/ml, 20 mIU/ml and 5 IU/ml) in urine calibrated against the WHO Fourth I.S. Occasionally, specimens containing less than 10 mIU/ml hCG can give positive results. The SUNLIFE early pregnancy test has an accuracy of >99 % as early as 4 days before the day of the missed expected period.

Content: 1 Test

Order quantity: ≥10.000 boxes

Ovulation test

Medical product

Ovulation is triggered by a surge in luteinizing hormone (LH). The LH Ovulation Test detects this surge in urine and indicates that ovulation will occur within the next 24–48 hours - the most fertile time in the cycle. The precise immunoassay detects LH concentrations as low as 25 mIU/ml, allowing for easy, safe, and reliable determination of fertile days.

Direction:

To use the ovulation test, hold the test tip in a fresh urine sample for a few seconds. After a short wait, the result appears on the display. A positive result indicates that LH levels have risen and ovulation is expected within the next 24 to 48 hours. For reliable results, the test should be performed at the same time every day.

Content: 5 Tests

Fertility Women Capsules

Food supplement

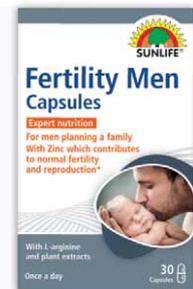

Fertility for Women contains a balanced combination of L-arginine, maca, and Siberian ginseng, which naturally supports the body. L-arginine promotes blood circulation, maca strengthens vitality and hormonal balance, while Siberian ginseng contributes to stress resistance. Together, these ingredients promote well-being and can positively influence fertility – for natural balance and inner strength.

Fertility Men Capsules

Food supplement

Fertility Men capsules contain plant extracts which are used since centuries to increase fertility. Vitamin E helps to protect cells from oxidative stress and B vitamins support a normal energy-yielding metabolism. Zinc contributes to the maintenance of normal testosterone levels in the blood and supports a normal cell division, fertility and reproduction.

Composition (per capsules / NRV*):

L-Arginine	100 mg (**)	Vitamin B6	3 mg (214% NRV*)
Maca root powder	50 mg (**)	Vitamin B12	10 µg (400% NRV*)
Siberian Ginseng		Vitamin A	750 µg (94% NRV*)
extract	25 mg (**)	Vitamin D3	15 µg (300% NRV*)

Fertility stick men

Food supplement

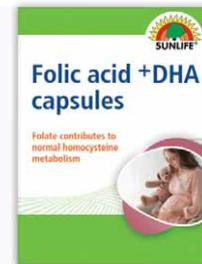

Vitamin E reliably protects cells from oxidative stress, thus contributing to maintaining their function. Zinc supports normal fertility and reproduction by participating in important metabolic processes. Together, both nutrients promote vitality, cell protection, and hormonal balance – for natural health and well-being.

Folic acid + DHA Capsules

Food supplement

DHA, vitamin C, iron, and folate work together to support key bodily functions. DHA contributes to normal brain function, vitamin C strengthens the immune system and improves iron absorption. Iron promotes oxygen transport in the blood, while folate supports homocysteine metabolism. This nutrient combination sustainably boosts vitality, energy, and general well-being.

Composition (per stick / NRV*):

L-Carnitin tartrate	1000 mg (**)
L-Arginine	250 mg (**)
Maca root powder	200 mg (**)
Coenzyme Q10	15 mg (**)
Vitamin E	12 mg (100% NRV*)

Sleep & Relax

Lemon balm extract, melatonin, hops extract, and lemongrass form a harmonious combination of natural ingredients to support relaxation, sleep quality, and inner peace.

Lemon balm extract has a calming effect on the nervous system and helps reduce stress and inner restlessness. Hops extract is traditionally used to promote restful sleep and, together with lemon balm, naturally supports falling asleep.

Melatonin helps shorten the time it takes to fall asleep and regulates the natural sleep-wake rhythm - ideal for irregular sleep patterns or jet lag.

Lemongrass not only adds a pleasantly fresh aroma to the combination but is also valued for its relaxing and balancing properties. Together, these ingredients provide gentle, natural support for people who want to improve their sleep, unwind, and recharge for everyday life.

Perfect for stressful times when body and mind crave relaxation.

Magnesium 400 Strong for the Night

Food supplement

Food supplement with magnesium, lemon balm extract, and vitamins. Healthy sleep is important for meeting the demands of everyday life during the day. Inner peace, strong nerves, and relaxed muscles are important prerequisites for healthy and restful sleep. Magnesium contributes to normal muscle function and normal function.

Sports

Food supplements are now an integral part of an active lifestyle and play an important role in supporting performance, recovery, and general well-being.

They specifically supplement the daily diet with vitamins, minerals, proteins, amino acids, or special plant extracts to optimally nourish the body during intensive training phases.

Whether endurance, strength, or recreational sports - the correct use of dietary supplements can help improve energy supply, promote muscle recovery, and reduce fatigue.

However, the focus should always be on a holistic approach: A balanced diet, adequate fluid intake, restful sleep, and regular exercise form the basis for sustainable health and fitness.

Food supplements can usefully support this lifestyle, but they cannot replace a healthy lifestyle. Those who choose consciously and according to their needs can benefit from the positive effects and keep both body and mind in balance – for more energy, stamina, and vitality in everyday life.

B-Complex + Magnesium Effervescent tablets

Food supplement

Magnesium and vitamin B6 form a powerful combination to support energy and muscle function. Magnesium contributes to normal protein synthesis and muscle function, while vitamin B6 promotes energy metabolism and reduces fatigue. Together, they support strength, endurance, and recovery – ideal for active people and everyday athletic performance.

Composition (per tablet / NRV*):

Magnesium	300 mg (80% NRV*)
Vitamin B3	20 mg (125% NRV*)

Stomach & Digestion

A rich, fatty meal or the consumption of alcohol can place a heavy strain on the body and imbalance the digestive system. Complaints such as bloating, stomach pressure, or a feeling of fullness are common side effects and indicate that digestion is not functioning optimally. In such cases, natural plant substances can offer valuable support.

The artichoke is known for its digestive properties – its components help counteract excessive fat intake and support liver function. This stimulates fat metabolism, allowing the body to process food more effectively.

In addition, the active ingredients in pumpkin seed capsules help promote digestion, stimulate the metabolism, and support general well-being. Together, artichoke and pumpkin seeds offer natural, gentle relief from digestive problems and help restore inner balance – for a pleasant, light feeling in the body after eating.

Artichoke + Vitamins Effervescent tablets

Food supplement

With Artichoke juice concentrate and vitamins. Artichoke effervescent tablets stimulate the natural formation of bile, thus assisting the digestion of dietary fat. The bitters contained in artichokes aid digestion and are beneficial to the stomach, liver and gallbladder.

Composition (per tablet / NRV*):

Artichoke juice concentrate	170 mg (**)
Vitamin C	60 mg (75 %*)
Vitamin E	10 mg (83 %*)
Vitamin B6	2 mg (143 %*)
Vitamin B2	1,6 mg (114 %*)
Vitamin B1	1,4 mg (127 %*)
Vitamin B12	1,0 µg (40 %*)

Content: 20 Effervescent tablets

Order quantity: ≥10.000 tubes
No stock items

Artichoke capsules

Food supplement

Stress and hectic lifestyles, lack of exercise, and rich and fatty foods can strain digestion and impair general well-being. The artichoke originates from the Mediterranean region and is popular in Mediterranean cuisine and beyond due to its bitter compounds. Choline contributes to the maintenance of normal liver function and normal lipid metabolism.

Composition (per capsule / NRV*):

Artichoke juice concentrate	100 mg (**)
equivalent to fresh artichoke juice	1200 mg (**)
Choline	82.5 mg (**)

Content: 60 Capsules

Order quantity: ≥5.000 boxes
No stock items

Artichoke dragees

Food supplement

Stress and hectic lifestyles, lack of exercise, and rich and fatty foods can strain digestion and impair general well-being. The artichoke extract used corresponds to 5,000 mg of fresh artichoke in just one coated tablet. The artichoke originates from the Mediterranean region and is popular in Mediterranean cuisine and beyond due to its bitter constituents.

Composition (per 2 dragees / NRV*):

Artichoke leaf dry extract	272 mg (**)
Calcium	120 mg (15%*)

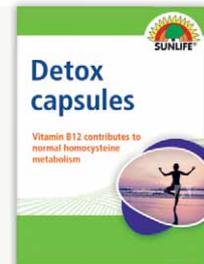

Content: 60 Dragees

Order quantity: ≥5.000 boxes
No stock items

Detox capsules

Food supplement

In people who have difficulty digesting lactose (milk sugar), the body no longer produces sufficient amounts of the enzyme lactase. As a result, lactose ingested through food cannot be broken down into its components and passes undigested into deeper sections of the intestine, causing the familiar symptoms.* In people who have difficulty digesting lactose, lactase improves lactose digestion.

Composition (per tablet / NRV*):

Silymarin (from milk thistle extract)	125 mg (**)
L-Arginine	30 mg (**)
L-Ornithine	15 mg (**)
L-Glutathione	10 mg (**)
Inositol	5 mg (**)
Vitamin C	15 mg (19% NRV*)
Vitamin B2	1 mg (71% NRV*)
Vitamin B6	1 mg (71% NRV*)
Vitamin B12	4,5 µg (180% NRV*)

Content: 30 Capsules

Order quantity: ≥5.000 boxes
No stock items

Lactase 6000 Tablets

Food supplement

In people who have difficulty digesting lactose (milk sugar), the body no longer produces sufficient amounts of the enzyme lactase. As a result, lactose ingested through food cannot be broken down into its components and passes undigested into deeper sections of the intestine, causing the familiar symptoms. *In people who have difficulty digesting lactose, lactase improves lactose digestion.

Composition (per tablet / NRV*):

	per tablet	per 2 tablets
Lactase	6.000 FCC	12.000 FCC

FCC = Food Chemical Codex-Einheit

Well-being & General Health

Restlessness, stress, and overload are part of everyday life for many people, and sustained stress can lead to exhaustion, poor concentration, and a general lack of motivation. Body and mind become unbalanced, which can negatively impact health and quality of life.

Especially during periods of intense physical or mental strain, it is important to provide targeted support to the body. A sufficient supply of vitamins, minerals, and trace elements strengthens the body's natural defenses and helps maintain cellular energy production.

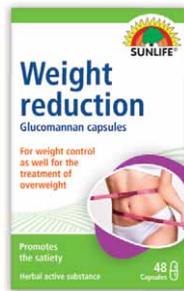

Furthermore, dietary supplements or special nutrient complexes can help stabilize physical and mental resilience. B vitamins promote nerve function and stress resistance, while magnesium contributes to muscle relaxation.

In combination with a balanced diet, exercise, and sufficient sleep, this can restore inner balance - for more energy, resilience, and an improved quality of life in everyday life.

Weight reduction Glucomannan capsules

Food supplement

Weight reduction Glucomannan capsules contain the fiber konjac glucomannan. This is extracted from the konjac root and is characterized by its high swelling capacity. After ingestion, the capsules dissolve in the stomach and swell when combined with liquid. Glucomannan thus promotes a feeling of fullness. Appetite Control Glucomannan Satiety Capsules help you eat less and thus save calories.

Composition (per capsule / NRV*):

Konjac glucomannan 400 mg (**)

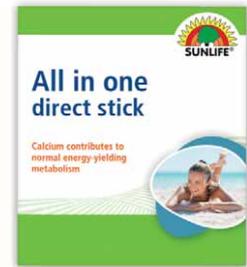

Content: 48 Capsules

Order quantity: ≥5.000 boxes

Marigold ointment

Cosmetic product

Marigold Ointment contains valuable, traditionally used, natural calendula extract in a cream base specially adapted to skin compatibility. A select combination of active ingredients, including particularly high-quality conditioning ingredients, jojoba oil, and allantoin, counteracts skin dehydration and provides essential care. Marigold Ointment is particularly suitable for sensitive, stressed, and rough skin.

Composition:

Calendula Officinalis Flower Extract

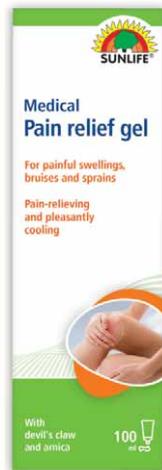

Content: 100 ml

Order quantity: ≥10.000 boxes
No stock items

Medical Pain relief gel

Medical product

Medicinal Pain Gel is applied externally to the skin for bruises, sprains, insect bites, contusions, and sunburn. The conductive cooling effect of the alcohol and the additional cooling effect of the acetic clay cools the swelling and relieves pain. Acetic clay also has an astringent effect, which draws some water out of the swelling and thus reduces it somewhat. Do not use on open wounds.

Composition:

With devil's claw and arnica

Content: 100 ml

Order quantity: ≥10.000 boxes
No stock items

Medical Wound gel

Medical product

Medicinal Wound Gel contains a carbomer hydrogel complex with hyaluronic acid, which forms a protective film on injured skin. This barrier allows the skin to regenerate and heal. Sunburn and minor burns also benefit from its moisturizing and cooling effect. Due to its wide range of applications, Medicinal Wound Gel should be a staple in every home and travel medicine cabinet.

Composition:

With panthenol and allantoin

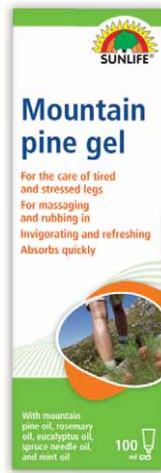

Content: 50 ml

Order quantity: ≥10.000 boxes
No stock items

Mountain pine gel

Cosmetic product

Mountain Pine Gel is ideal for rubbing and massaging into tired and strained legs; it has a relaxing and invigorating effect. The combination of mountain pine oil, rosemary oil, eucalyptus oil, spruce needle oil, and mint oil provides soothing relaxation and refreshment. Mountain Pine Gel is particularly suitable for skin care after sporting activities, while hiking, and for refreshment on hot days or during long car journeys.

Composition:

With mountain pine oil, rosemary oil, eucalyptus oil, spruce needle oil, and mint oil

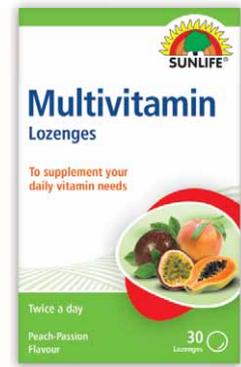

Content: 100 ml

Order quantity: ≥10.000 boxes
No stock items

Multivitamin Lozenges

Food supplement

A sufficient supply of vitamins is essential for health, energy, and performance. Physical exertion, stress, and an unbalanced diet can significantly increase vitamin requirements. Targeted supplementation of important vitamins supports metabolism, the immune system, and well-being - ideal for optimally nourishing the body even during stressful periods and maintaining vitality.

Composition (per tablet / NRV*):

Vitamin C	80 mg (100% NRV*)
Vitamin E (α-TE)	12 mg (100% NRV*)
Vitamin B1	1,1 mg (100% NRV*)
Vitamin B2	1,4 mg (100% NRV*)
Vitamin B6	1,4 mg (100% NRV*)
Vitamin B12	2,5 µg (100% NRV*)
Folic acid	200 µg (100% NRV*)
Biotin	50 µg (100% NRV*)
Niacin	16 mg (100% NRV*)
Pantothenic acid	6 mg (100% NRV*)

Content: 30 Lozenges

Order quantity: ≥5.000 boxes

Panthenol Ointment

Cosmetic product

Panthenol Ointment is ideal when skin needs special care - whether as an after-sun, hand, or body cream. The active ingredient panthenol (pro-vitamin B5) penetrates deep into the skin, binds moisture, and supports regeneration. It soothes irritated or sensitive skin and provides gentle yet intensive care for the whole family.

Composition:

With panthenol and vitamin E

Content: 100 ml

Order quantity: ≥10.000 boxes
No stock items
